Entry List for 'Home Decoration' Contest Will Close on Saturday

There are still a few days left in which to file your entry in the Albany "Home Decoration" contest, sponsored by the Ellis-Olson Mortuary and the Albany Times.

The contest is open to any home located within the city limits of Albany. All entries must be delivered to the Albany Times or to the Ellis-Olson Mortuary on or before Saturday, December 19, 1959. And all decisions of the judges are final.

The outdoor home decorations must be symbolic of Christmas, but any theme may be used that is typical of the Christmas holiday. Three Albany residents have been selected as judges. Window decorations are acceptable if visible from the street or sidewalk.

The Grand Sweepstakes winner will receive $50; the first prize will be $25; the second prize will be an electric fry pan; third prize, an electric coffee maker; fourth prize, a three-piece set of Dec oware, and the fifth prize, a punch bowl and cups set.

Entries have come in from all parts of Albany, and it is hoped that this contest may help to make Albany a city of beauty during the holiday season.

You may file your entries in person, or by mail, at the Ellis-Olson Mortuary, 727 San Pablo Avenue, or the Albany Times, 1240-42 Solano Avenue. A copy of the entry blank will be found elsewhere in this issue of the paper.

Albany Bicycle Licensing Starts Monday, Dec. 21

The Albany Fire Department will start to issue 1960 bicycle license plates on December 21.

The licenses will be issued between the hours of 1 p.m. and 5 p.m. every day except Sundays and holidays.

The fee will be $.50 until March 1, at which time it will be increased to $1.00. These fees are not meant to bring in revenue and just barely cover the cost of the materials used.

Inasmuch as the bicycle licensing program was developed to aid in the recovery of lost and stolen bicycles, everyone is urged to have his bicycle licensed as early as possible.

Chamber Chatter

By IRENE GROVE

We promised you it would happen . . . the lights are up on San Pablo, the ribbons are on the trees on Solano and the decorations up on "Christmas Lane," better known as Key Route. Now it does look like Christmas in Albany.

How about your home decorations? Albany residents are urged to decorate at home to add to the festive look of the city. Letters were sent to residents on Key Route Boulevard especially urging them to decorate to make that boulevard truly a Christmas Lane . . . but any resident is urged to enter the Home Decoration Contest sponsored by the Ellis-Olson Mortuary and the Albany Times. The prizes are wonderful . . . it's fun to do and adds so much to the holiday appearance of our city.

Your Albany merchants extend their holiday greetings with more and more festive displays inside and outside their businesses. The Christmas trees are beautiful . . . take note of the trees at Muller-Gordon Motors, Howard Motors, and East Bay Chevrolet . . . beautiful trees herald Christmas at Mechanics Bank, Bank of America, in the the windows of A&A Cafe, the lighted one in front of Call Bros. Jewelers and many others. A very outstanding Christmas display is at Security Savings and Loan . . . Santa Claus and his gift-laden tree in the window are a background to the candy striped poles and tree in front of the building. There are almost too many to mention but don't miss the American Florist Christmas windows . . . all the beautiful Christmas decorations, as always, at Monica's Flowers and the Nativity Scene and tree at Flowerland Nursery.

Yes, it is another week closer

Mrs. Twigger Dies in Honolulu

Word has just been received in Albany of the death of Mrs. Frances Twigger, 59, former long-time resident of Albany, on December 11 in Honolulu where she had lived since 1941. Mrs. Twigger is survived by two sons, Heaton, of Honolulu, and Lorin of St. Louis. Two grandchildren, Allen and Becky, also survive.

COUNCIL SETS FINAL HEARING ON NEW ZONING

The Albany City Council Monday night set Tuesday, January 19, 1960 as the date for a final hearing on the proposed new zoning ordinance.

A communication from the Planning and Zoning Commission recommending "that the new zoning ordinance, chart and map be adopted as corrected", was read before the council and discussed at some length.

The final motion, as adopted, calls for newspaper advertising of the January hearing, together with the mailing to all property owners notice of the hearing.

The vote on the motion was 3 to 1, Mrs. Zahn voting "No". She declared the other members of the council were trying to get the new zoning ordinance adopted without giving the public an opportunity to study its details, and to oppose any zoning changes which they might wish to oppose. Mayor Blank was absent, due to an attack of laryngitis.

It was brought out in the discussion that the ordinance has been studied by engineers as well as the members of the Planning and Zoning Commission and the City Council. That it has been discussed on many occasions, and that there already have been a number of public hearings during the past several years during which the subject has been under discussion. Copies of the tentative final maps have been mounted on the wall of the council chamber and are open to public view.

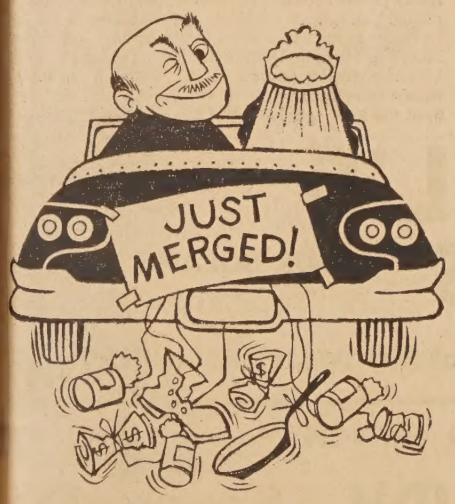

The council also set December 28 as the date for a public hearing on the recommendation of the Planning and Zoning Commission for the rezoning of Lot 39 and the northerly 6.25 feet of Lot 40, Block 16, Regents Park Map No. 6 (634 Stannage Avenue), from First Residential to Second Residential to permit construction of a triplex. Motion to set this hearing date was carried 3 to 1, Mrs. Zahn dissenting on the ground that she objected to opening up residential areas to multiple dwellings. The petition for the rezoning was filed by the contracting firm of Carter and Rago.

Public hearings for Monday, January 4, were set on the requests of the Berkey Lee Volkswagen firm for a Use Permit for a Parking Lot on the Westerly 75 feet of Lots 20 and 21, Block 1, Regents Park Map No. 7 (facing on Adams Street); and for the Rezoning of the Easterly 25 feet of Lots 20 and 21, Block No. 1, Regents Park Map No. 7, to Permit the Erection of a Two-Story Building — (Conditional rezoning from the present Second Residential to Commercial.

Ordinance No. 59-024, for the rezoning of Lot 19, and a portion of Lot 18, Block 16, Regents Park Map No. 8, 813 Curtis, from First to Second Residential for the purpose of erecting a duplex, was passed on second reading, 3 to 1, Mrs. Zahn again dissenting.

Action on the report of City Engineer Dayton regarding the slide area in the 500 Block of Madison Street, was held over one week for further study.

Mrs. Zahn reported that she had received "a number of calls" complaining of automobile speeding on Evelyn Avenue, and recommended action be taken to reduce the present 25 miles an hour speed limit. This was referred to the Traffic and Safety Commission for its recommendation. Evelyn Avenue has stop signs at Brighton, Portland, Solano and Marin, and a Yield sign at Washington.

Here Are Some Suggestions for Press Chairmen

This is for the special attention of Press Chairmen of lodges, churches, clubs, auxiliaries, etc.

Some of you may be wondering why your offerings have not been printed recently.

If you read the item printed in this paper on October 28, entitled "Publicity Chairmen Attention," you probably are doing all right. If not, you may be getting your copy in too late for our new press time on Tuesdays.

We are still receiving notices and articles in the mail on Wednesdays or Thursdays after the paper has been printed and distributed.

Let us repeat some of the things we said in that October article:

Notices of meetings and other activities must be received by the preceding Friday morning. If possible we should have them on Wednesday or Thursday. Usually we can take care of important late matter on Monday morning, especially if we know about it in advance.

Of course everyone thinks his or her particular article is very important. We feel the same way about it, but mechanical detail in getting out a paper prevents us from using material we would like to print — but "Time waits for no man".

Material should be typed, double-spaced, and with some space left at the top for headings, or notations for the printer. Keep your notices as short as possible!

Major James F. Alford, Air Force officer, will give what should be a most interesting and informative talk on the "Strategic Air Command" at next Tuesday's luncheon meeting of the Albany Rotary Club. Major Alford will be introduced by Rotarian "Bill" Hays. President Roy Harford will preside.

Tuesday of this week Dr. Lieberman, heart specialist, spoke on "Your Heart and the Heart Fund" to an interested audience, while on Thursday the Albany club members will visit El Cerrito Club in an inter-city meeting at the El Cerrito Club.

The Tuesday after Christmas, December 29, well known musician Paul P. Ralston as chairman of the day will present some of the workers of Goodwill Industries, who will explain the many charitable services carried out by that organization.

Safe Driving Course Offered At Albany High

Teaching teen-age students the skills of driving a car and the need for sportsmanlike driving attitudes is part of the curriculum at Albany High School and Adult Education Center again this year.

The driver training course consists of classroom study of traffic safety rules and sound driving practices as well as on-the-road supervised training in automobiles equipped with AAA dual controls. East Bay Chevrolet Company is loaning a Chevrolet and Curt Campbell's Ford Company a Ford to the school for use in the prgram. The dual controls are supplied at cost by the California State Automobile Association.

District Superintendent Kenneth M. Forry announces that Edward Simon, Marvin Baugh and John Ingram are the instructors for the classes.

Each student receives a minimum of six hours of actual behind-the-wheel driving instruction. He must also complete a course in driver education in which he studies the physical laws of nature as well as the man-made laws governing the operation of a motor vehicle.

The California State Automobile Association points out that courses in Driver Education include the study of such subjects as speed, mass, friction and energy and thus supplement the increased emphasis being placed on the physical sciences. Also included in the course are such topics as sound traffic practices, the psychology of the driver, and the economics of the motor age.

During the 1958-59 school year, 193,400 students in California completed a course in the classroom phase of driver education while 96,800 students received behind-the-wheel driver training.

A Tip For Santas Everywhere

PHOTO BY TONY VENTI

Singing star Teresa Brewer gives Santa an important Christmas assignment—the delivery of a United States Savings Bond to each of her four children. The lovely recording artist, whose inimitable style has thrilled millions on radio and television, thinks that the new better-than-ever Savings Bonds make ideal Christmas gifts for children and adults alike. "They are the present with a future," Teresa says, "the one that keeps on giving." She recommends Savings Bonds to all Americans as the ideal Christmas gift.

Albany Council of Republican Women Stage Program

Thirty-three members of the Albany Council of Republican Women attended their Christmas Dinner party at the Red Barn recently. Mrs. Una Roderick was chairman and the tables were beautifully decorated with Christmas greens, candles and figurines.

Entertainment was under the auspices of the American Field Service. Kenneth Logan, representing that group, introduced Miss Renee DeYoe, who told of her experiences last summer in West Germany. Miss DeYoe then introduced Birger Hansen, who is here from Denmark, attending Albany High School. He told of his homeland and the differences he finds in our way of life compared to that of his country.

Mrs. Edith Sheriff announces the next business meeting of the Albany Council of Republican Women on January 5, in the Teachers' Lunch Room at Cornell School. Those interested in the work of this organization are welcome.

Simple Simon brings you this miracle convenience food called EASE—good honest butter-and-yeast dough; mixed, kneaded and frozen to await your pleasure. Whenever you feel in the mood, just defrost, shape, let rise and bake — that's all there is to it.

Photo Courtesy Carnation Company

You'll find many a tempting recipe in the instructions enclosed in the package. As an example, here's a favorite from Carnation Company's test kitchens—Butterscotch Nut Rolls which you may also know as sticky buns. Wonderful for coffee break, snack or dessert—as well as to fill out a light meal. You'll feel like a genius when you make them yourself, with EASE!

BUTTERSCOTCH NUT ROLLS

Defrost 1 package (1 pound) of EASE according to the instructions in the package. Roll dough on lightly on lightly-floured board into a 9"x13" oblong. Spread dough with 2 tablespoons softened butter. Sprinkle with ½ cup sugar and 1 teaspoon cinnamon. Roll tightly, beginning from wide side. Pinch edges of roll to seal. Cut roll into 1-inch slices. Meanwhile, prepare 12-cup muffin tin, by coating each muffin cup with 2 teaspoons butter and 2 teaspoons brown sugar. Put 4 or 5 pecan halves in each muffin cup. Place cup slices of yeast roll in muffin cups over nuts. Cover with damp cloth or aluminum foil; let rise in warm place until double in bulk (30-40 minutes). Bake in moderate oven (375°) 20-25 minutes. *Immediately* turn upside down on large tray. Let pan stay over rolls a minute so butterscotch runs over them.

The "Rules of Driving" an automobile have been changed. Many of us are confused by the interpretations we have heard from our friends.

A recent check of the driving habits of a large group of employees of an East Bay company showed they were uncertain and did not know for sure what was meant by some of the basic rules of driving an automobile. These men could operate a car expertly because of their natural mechanical abilities, but these same men were hungry for information about the rules and what they meant.

Their Safety Committee and insurance company stressed the importance of avoiding accidents and driving safely, which these people were anxious to do. But in that split second when a traffic decision had to be made, they found they were not sure if they were doing what was right according to the new changes.

These "expert" drivers wanted an explanation of the rules concerning pedestrians. They wanted to know about "Right of Way" during turns and at intersections. They knew they were supposed to stop at a stop sign but they did not know where to stop. They thought they knew, but they were not sure.

If your company is paying a high insurance premium because of too many accidents, or you and your drivers are receiving traffic citations, why not let us attempt to answer and explain a few of these questions.

TAX FACTS FOR THE HOMEOWNER NO. 3

Theft, Damage And Destruction Of Property

(This is one of a series of articles on federal income tax filing. The articles are based on information provided by the American Institute of Certified Public Accountants and the California Society of Certified Public Accountants, in cooperation with the Internal Revenue Service.)

YOU can get some relief from casualty and theft losses by taking advantage of the legitimate tax deductions you are allowed.

To help you prepare a correct return and take advantage of legitimate tax savings, this newspaper is printing a series of four articles prepared with the help of the state and national organizations of certified public accountants.

Today's article considers the problems you may have in claiming deductions for theft or casualty losses. Later articles will offer advice on other tax problems of particular interest to homeowners.

Time and Destruction

There are a great many ways in which your property can be damaged or destroyed, as for example, by fire, storm, flood, or explosion. Generally, a casualty which will give rise to a deductible loss must occur with some suddenness. However, there are situations where the casualty occurs over a period of time and still results in a deductible casualty loss. For example, consider the damage caused by termites.

Say that you purchased your house in June 1957 and at that time a check by experts showed that there were no termites present. Then, in February 1958, you discover that termites have been eating your house from under you. Can you claim a casualty loss deduction for the termite damage? Yes, you can, even though the damage took place over a nine month period.

The casualty here, is the invasion of your house by the termites. However, it is probable that a casualty deduction will not be allowed where the termite damage did not occur over a relatively short period of time.

The Property Must Be Yours

You must have ownership of the damaged property to claim a loss deduction. It is quite conceivable that severe damage to the property around your house may cause the value of your property to decline. Although the damage occurred suddenly, you cannot claim a deduction for the loss in value unless your own property was actually damaged.

You can claim a deduction for a drop in the value of your car due to an accident. This is true regardless of whether you or another driver is to blame, unless the accident is a result of your willful negligence. However, if you are responsible for a car accident and have to pay for damage inflicted on someone else's car, you cannot deduct the payment as a casualty loss.

Proving a Casualty Loss

Determining the amount you can claim as a casualty loss may be very difficult. Generally you are allowed to claim the amount by which your property decreased in value. In some cases, a repair bill will be considered sufficient to support your deduction.

The best thing you can do is gather together any information that may help support the amount you claim as a deduction. For example, if your house is badly damaged, a qualified architect can often give a reasonable estimate of the before and after value. The appraisal fee, by the way, is a deductible expense.

Theft Losses

You can claim a deduction for the value of property that is stolen. The problem in claiming losses from theft is that you will probably have to show some evidence that the theft took place. Be sure that there is at least a police record of the theft and a report of any findings the police may have come up with. Also, you might keep track of newspaper accounts, insurance reports, and so on. Theft losses are deductible in the year you discover that your property is missing.

You can get additional information on casualty and theft deductions from the instruction booklet issued by the Internal Revenue Service each year.
